CORONER'S OFFICE .- The Coroner this morning held an inquest at No. 21 Walnut street, on the body of James Thompson, barn in the Isle of Wight, England, aged 25 years—a hand on heard of the U. S. ship Brandywine, which lately arrived in Hampton Reads, and who was taken sick yesterday morning with violent pains in his breast and bowels, and died about three evelock this morning. Verdict—Death from inflammation of the stomach and bowels.

ACCIDENTALLY DROWNED WHILE BATHING .- Also, at No. 267 Water street, on the body of a young man named John says that proceedings against the State Bank are merely for Mahoney, born in Ireland, aged 18 or 19 years. The demased, with about 20 other young men and boys, went down to the East River last evening about half past 8 o'clock | currency. Nothing will be done to disturb the regular ac to bathe at the foot of Peck Slip, and while they were fro-licking with one mother, a lad, who was unconscious that Mahoney could not swim, posted him off the dock, and he sunk and was drowned. The verdict of the Jury was, accidentally drowned, and perfectly exonerating the lad, Francis Short, aged 15 years, who pushed Mahoney in the River, from any evil design in the matter.

DEATH FROM DRINKING COLD WATER -Also at the Alm Heuse in the Park, on the body of Dennis Mailen, born in Ireland, aged about 64 years, a very intemperate man, who went to a pump in Cherry-street early in the morning and drank freely of cold water. He was soon after seized with convulsions and died almost instantly Verdist-death by the joint effects of intemperance and drinking cold water. ACCIDENTALLY DROWNED .- Also at the Alms House, on the body of Joseph Sampson, born in England, aged 16 years, who was drowned about the 4th instant while endeavoring to go aboard of his father's vessel, the British bark Lous, which was then lying at Pier No. 10 East River. Verdict-accidentally drowned.

SANDS'S SARSAPARILLA.-Its own works proclaim it.-Let the following speak for itself : "New-York, August 16, 1842.

"Messrs Sands—Gentlemen: Owing to you a debt which money cannot pay, I am induced to make a public acknow-ledgement of the benefit I have derived from your (to me) invaluable preparation of Sarsaparilla. I was sorely afflict ed with a terrible scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my ears, running into my head, and extended all over my face, neck, arms and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to sleep or lie down, and the diseas, extending into my ears, seriously affected and the disease extending into my ears, seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept constantly oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice and tried different plans of treatment, the disease continued to gr-sw worse, until I gave up in despair. Fortunately for me, I chanced to fall in with a lady or board a railroad car while raveling for my health, who informed me that her son was at one time in as bad a condition as I was, and that by using your Sarsaparilla he was speedly cured. I immediately procured the article and commenced using it, and now, after having taken less than six bottles, I am well and able to attend tomy business. I send you this statement as an act of justice, only hoping it may you this statement as an act of justice, only hoping it may induce the afflicted to make use of the right medicine, and thereby save themselves much suffering and expense.— Those wishing to learn farther particulars concerning my case will find me at No. 207 Greenwich-street, where it will afford me great pleasure to communicate any thing in relation to the above.

I am, with gratitude, yours, &c.

Should such ar institution be established it will prove of the highest utility and command a sound and extensive circulation. To such an one, and such only, need the business community look

The Savannah Republican has the following judicious re-

COTTON.—The present crop, so far, promises to be the largest ever known in this country, and yet with it is the prospect of a less active demand than heretofore, which must result in the lowest prices ever before current. One must result in the lowest prices ever before current. One evident cause of the decline in price, even while the consumption apparently continues, is the over-production of goods, acting upon a demand diminished by the distressed condition of many great consuming countries. Manufacturers, therefore, cannot continue their business except they obtain the raw material at or below its present low figure. Economy is the order of the day, all the world ever, and is perhaps the only resource to which the people of this country can look for relief, because that depends upon them selves only. Discordant factions prevent the healthy action of Government, in fostering the resources of the people, and giving a healthy tone to our currency and our credit.—Economy and retrenchment must therefore continue until the people are out of debt, and then will our currency become almost reduced to metal, and the prices of all things come almost reduced to metal, and the prices of all things stand at a corresponding rate.

But it remains to be seen how long our people will con-

But it remains to be seen now long our people with the time to raise cotton at prices so little renamerating when they can turn their attention to so many other branches of production, and by reducing that of cotton enhance the value what is sent into market. But it will not be long before they will perceive the value of a home market, as well as the foreign one, to which Southern political economists have hitherto given such a value and importance, as to throw the demand from our own manufacturers out of the question. demand from our own manufacturers out of the question.

The effect of a reduced demand from the North will b seen here this very season; and, as practical experience is worth all theory, we shall doubtless see a very different feeling on the subject of protecting home industry in pre-ference to foreign, in the course of another twelvemonth, through the whole country.

FROM MRS. NANSCAWEN. Doct. Thomson—Sir: I have been in a feeble state of health for the past eight years, having been afflicted with a had cough, pain in the side and stemach, and other female weaknesses too numerous to mention. I have at various weaknesses too numerous to mention. I have at various stimes been under the attendance of ten regular Physicians, several of whom have given me up as incurable. I have continued to linger in a teeble state of health until a few days past, when I put myself under the care of Dr. Thomson, No. 343 Broome street, and at this date consider myself in a better state of health than for the past eight years. I do not feel any pain, distress, or inconvenience, from any disease whatever. I am surprised when I think of the rapidity with which I have improved while under his care. I have also withersed with surprise the rapid improvement have also witnessed with surprise the rapid improvement of several other patients, whose diseases appeared as obsti-nate as my own, under the Doctor's care. the rupture may have made toward the eradication.

Children under 12 years universally cured, without further expense than the cost of the Truss. The radical cure has been under the progressive practical improvement for more than 20 years past in Dr. Hull's Truss Office, and is now brought to a state of unrivalled perfection.

Many treacherous agents have undertaken to vend imitations of Dr. Hull's celebrated Trusses for the easy and safe retention of ruptures. These imitations cannot be relied on —they are made by unskilful mechanics, and are no better than the ordinary trusses of the market. The genuine have the full name in writing of AMOS G. TEW AND GREAT INVENTION! FRANCIS'S HIGHLY IMPROVED MANIFOLD WRITER.—By this wonderful investion a letter and du plicate can be written in one operation with more case and greater facility than a single letter with an ordinary pendicular inching.

To the mercantile, professional and traveling part of the community this truly great invention is of infinite value as it is a great saving of time, trouble and expense. The principal advantage to be derived from the manifold writer is cipal advantage to be derived from the manifold writer is that a copy of any document may be kept without any additional trouble to the writer, and without any necessity of using either an insistand or a pen. The instrument used for writing is an agate point, consequently it never wears by use. For banks, insurance offices, merchants, men of business generally, lawyers, postmasters, editors, reporters, public offices, and all who may be designed on preserying conjusoffices, and all who may be desirous of preserving copi

of their letters, documents, &c. with an immense saving of time and the satisfaction of having an exact copy of what they have we't as, this will be found invaluable.

Francis's Manifold Writer has new been in successful operation two years, during which time the proprietor has had the pleasure of receiving the unleigned approbation of all whose observation it has come under. At the late fair of the American Institute the merits of the article were examin ed into by three of the most able chemists in the country who pronounced it to be a very ingenious and useful conwho produmed it to be a very ingenious and useful contrivance, and not liable to change color by exposure to air, mosture, or chemical agents. SABBATH TRACTS.—The Sabbath

Tract Society of the City of New-York would call
the attention of those interested in the sanctification of the
Sabbath to a series of Tracts they have commenced publisting on this subject. Knowing that the Sabbath is an inattention dear to every Christian, and that our hopes for the
future are to a considerable extent identified with it, they
are anxious that whatever goes to support its claims or illustrates its design, should be considered with candor. This
subject to ught especially to be done at a time like the preent, when there is so great a diversity of views on the subject. Some there are who enforce its observance from the
fourth commandment, while they regard the New Testaent, when there is so great a diversity of views on the subject. Some there are who enforce its observance from the fourth commandment, while they regard the New Testament as warranting a change from the seventh to the first day of the week. Others, seeing the impossibility of proving such a change, abandon the commandment entirely, and advocate Sabbath-keeping on the ground of mere expediency. Another class, still, declare themselves set free from all obligation to observe a day of rest. In the midst of these conflicting theories, the question is one of vital importance—whence our obligation to observe a Sabbath, and what is implied in doing it? Believing that the Sabbatic institution originated in Paradise—that the fourth commandment was a mere rehearsal of it—that it was designed for all mea—that Jesus Christ did not change what their Lord left untouched—that, therefore, the seventh day of the week is the Christian Sabbath—and that a universal and sacred regard for the institution can never be secured while men are set free from the binding authority of God's law—the Society has commenced this work, and asks a candid hearing from all who would see the Sabbath 'a delight, the holy of the Lord.'

It is proposed to publish these Tracts in monthly numbers—each number will form a distinct Tract, and contain from 24 to 48 pages. Twelve numbers will ke delivered to subscribers tree of additional expense for 50 cents. To the trade, or to Societies, or individuals wishing them for distrib tion, they will be supplied at the rate of 15 pages for one ent.

It is believed that the selling of Stocks by auction as a line believed that the selling of Stocks by auction as a

regular business has never been attempted in this city. In Boston and other cities most of the stocks are disposed of at outblic sale. This mode of transacting business presents ad-antages over the present custom. At auction sales the raiers in stocks can always be present and judge for them-elves whether the sales are fairly conducted or not, a privi-ege of which they are now deprived.

The seller will have to pay no more commission than the regular brokerage, and the purchaser will by attending to the sale save the amount of a brokerage.

The numerous kinds of stock offered in this market that are not quoted on the books of the brokers, and therefore are rendered unsalable, will by the adoption of this plan enable the holder to present them favorably before the public through the advertisement of the auctioneer.

TAILORS.—One of the greatest discoveries ever made in the art of Cutting.—JOHN DAVIS has discovered the true principle in the Balancing and Drafting of Coats—which principle I have no doubt has been more studied than any other science, for all other sciences have been confined to but lew compared with the thousands of the trade that have turned their attention to discover this point, both here and in Europe for this fifty years. It is an entirely original and self-varying system, sothing complicated, no inauter in what position the person stands. When you draft the Coat, it works out every point perfectly correct. This system has been thoroughly attested by a number of the trade for eighteen months in Newperfectly correct. This system has been thoroughly attested by a number of the trade for eighteen months in New-York. Any of the trade wishing to obtain a good rule for Draiting Coats, with an original improvement on Vests, and other useful instructions in the general art of Cutting, are solicited to call at 156 Fulton st. New-York, where they will receive every attention.
